DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

St. James ME Church stands 40' from the west side of Hicksburg Road , one mile after that road makes its junction with Red Hill Road. It faces east. The building measures 20' across the front facade and is 30 ' long. Before the vestibule was added to the front and the small addition at the rear this structure was 20'x20'. It is gabled (east-west). It rests on concrete blocks and is constructed of vertical boards with battens. The building has been covered with some kind of plasterboard (the rain shoud deteriorate this quickly). It has a composite shingle roof but the old wooden shingles are visible on the southside. The front has 2 cement steps up to double wooden doors. There are 3 6-over-6 5' windows (clear-glass) in the north side of the structure and 3 identical windows on the southside.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This is a very isolated church located in a tiny black community. The members of the parish seem to be trying to save this old building without much results. The building is made of random width vertical siding with battens. It is presently braced-up on the southside. At present it is still in use.
